EXPERIENCE

iCOMMUNITY

iOS DEVELOPER TRAINEE

Feb 2025 – In Progress

I am currently participating in a comprehensive iOS bootcamp program covering technical and soft skills, which aims to effectively use version control systems and understand project management methodologies. Through interview simulations, I am better prepared for professional opportunities. I am also learning how to build a strong online professional identity using platforms like LinkedIn and X.

In terms of technical skills, I have gained expertise in:

Swift Basics

Architectures: MVC, MVVM

UIKit: UI Elements, Storyboard, and Programmatic UI Design

Network Layer and Localization

Unit Testing and Xcode proficiency

Project Management Tools: Kanban, Trello

EDUCATION

Nisantasi University of Engineering

I will graduate from **Computer Engineering** in 2026

Arnavutköy College Anatolian High

grad from in 2021

ABOUT

Hello, I'm Muhammed Yilmaz. I'm focusing on my career as an iOS developer and I'm passionate about building innovative apps that add value to the Apple ecosystem. I build performant, scalable, and user-centric apps using the latest technologies that the iOS platform has to offer, especially Swift and SwiftUI.

SKILLS

- Swift, UIKit
- MVVM, MVC
- Firebase
- Git, Git Flow
- Kanban, Trello

LANGUAGES

Turkish – Native

English – Beginner
